THE BANNER.

MOUNT VERNON, MAY 7, 1899

Reading matter on every page.

Electric Medical College.
For sale, at a bargain, a SCHOLARSHIP in the Electric Medical College of Pennsylvania, at Philadelphia, for a full and thorough course of instruction. Apply at the BANNER OFFICE, Mt. Vernon, O.

LOCAL BRIEVITIES.

—Extra Copies of the BANNER can be had at this office, in wrappers, for mailing. Price 5 cents.

—The Legislature will adjourn this day, (Friday), May 7th.

—An exchange says that a small quantity of horse-radish, in a tea-cupful of sour milk, will remove freckles.

—When you want to buy anything look in the BANNER and see if the article is advertised. If so there is the place to buy.

—The surest way to obtain the BANNER is to subscribe and pay for it to depend upon borrowing, begging or stealing it is somewhat uncertain.

—Hon. Hugh J. Jewett, of Zanesville, has purchased property in Columbus and designs making that city his future home.

—The Stratsville Coal Company is organizing with a capital stock of one million dollars. Parties in Zanesville are taking a leading part in this enterprise.

—The Ohio State Board of Agriculture offers a premium of \$1,000 for the best five acres of wheat, to be paid in cash for three successive years.

—Our County Commissioners are having substantial iron hitching posts placed in front of the Court House. This is all right; but why don't they have those trees planted in the Court House yard?

—There was quite a heavy frost on Monday morning, or as a farmer expressed himself to us, "a sneaking black frost," that was particularly killing to vegetation.

—We are told (for we did not see them) that a couple of Velocipedes, with riders mounted thereon, made the "round trip" of Gambier street, on Tuesday. Nobody hurt.

—Lorin Beach, a brother of Sheriff Beach, died on Tuesday morning, at his residence on Gambier Avenue, of consumption. He had been declining for some time past, but attended to business until about a week before his death.

—We learn that Mr. Webb Park, recently chief clerk in the Mt. Vernon Post Office, has gone to Newark, to occupy a similar position in the Post Office of that city.

—The beautiful lines, "The Bells of Shandon," which have been published in the past year, in the country during the past year, the BANNER among the rest—appeared in the Columbus Journal last week as original!

—Judge Hurd is in New York on business connected with the proposed Millersburg Railroad. We understand that everything is working favorably.

—Mr. J. J. Sperry, who purchased Chris. Weaver's lot in the "burnt district" on the Public Square, is getting ready to put up two first-class business houses there this summer. He has men now at work clearing away the rubbish.

—We call the attention of the farmers of Knox County to the advertisement of Mr. Robert Thompson, who is agent for the celebrated and popular Kirby Harvester. No machine for cutting grain has ever been invented that works better and gives more general satisfaction than the "Kirby."

—The Mavis' Grocery store near Union Grove, was broken into Friday night last, and several articles of small value taken. Mr. Mavis was away on a visit at the time, which was doubtless known to the thieves.

—More buildings will be put up in Mt. Vernon this year than any other in the history of our beautiful City.

—Who is the oldest man in Knox County, now living? Where was he born, and where does he now reside? Who will answer these questions?

—The Mansfield Base Ballists have organized for the campaign. In Mt. Vernon the "National game" is scarcely ever spoken of.

—There was a nice little runaway on Gambier street on Thursday morning. Joseph Bechtel's horse took a notion to try his bottom, and the result was that he smashed a new meat wagon considerably before he was sobered down.

—The Mt. Vernon Wollen Factory of Messrs. Penick & Harrington, is now in the full tide of success, and is turning out as fine cloth as any man wants to wear.

—Wool carding, spinning, &c. done on short notice and in the best manner. See advertisement.

—The Hatley and Miller Mill, which has been lying idle for years, has been purchased by Mr. Miller, our County Treasurer, at a judicial sale. He is having the dam rebuilt, and will have the Mill in good running order in a short time. We are glad to hear it.

Marriage Licenses Issued.
Licenses to marry the following parties, were issued by the Probate Judge of Knox county during the month of April:
Ira Barr and Louise Pierce.
Charles H. Bradbury and Annie B. Ewalt.
Jacob Hackley and Mary L. Martin.
Edward Booker and Ann Lewis.
Amos T. Bricker and Jane Shaw.
Chester F. Adams and Isabella C. Riley.
James Penhorwood and Ella White.
Tom Benton Thirt and Annie Morton.
B. J. Thompson and Caroline Robertson.
Samuel C. Thompson and Melinda Ward.
Leroy Keys and Ida Abbey.

New Time Tables.
New Time Tables have been adopted on most of the Railroads over which our readers travel. The changes are noted in the proper place in our paper.

On the S. M. & N. R. R. passenger trains pass Mt. Vernon as follows: Going South—4:00 P. M. and 11:25 A. M. Going North—5:04 P. M., 2:35 P. M. and 11:25 A. M.

On the Pittsburgh, Ft. Wayne and Chicago R. R., trains pass Mansfield as follows: Going West—4:03 P. M., 5:00 P. M., 9:30 P. M. and 9:20 A. M. Going East—7:08 P. M., 8:45 A. M., 4:45 A. M. and 10:40 A. M.

Total Eclipse of the Sun.
On August 7th a total eclipse of the sun will occur. This will be the most interesting eclipse that has been witnessed in this country for many years, and it will not happen again until the last year of the century. The shadows of earth will commence crossing the sun's disk about four o'clock in the afternoon, and will not entirely pass from it until nearly half past six.

Knox County Mutual Insurance Company.

Notwithstanding the fact that hundreds of Insurance Companies exist over the country, a large number of which have Agencies in Mount Vernon, still the good old Knox County Mutual has pursued the "even tenor of its way," without any puffing or blowing, to keep itself prominently before the public. The Company has been a successful operation for nearly thirty years, and during that time its affairs have been managed by a Board of Directors composed of substantial and reliable business men of Mount Vernon. The present Board consists of J. M. Byers, N. N. Hill and J. E. Woodbridge. JARED SPERRY is the President, Wm. TURNER Secretary and Treasurer, and GEORGE W. HARK General Agent of the Company. All these gentlemen are well and favorably known in this community, and enjoy the confidence of the public.

In our advertising columns to-day will be found a certified statement furnished by the Auditor of State in regard to the financial condition of the Knox Mutual, from which it will be seen that the available assets or capital of the Company, on the first of January, amounted to the handsome sum of \$602,083.33, and which has since been increased to over \$700,000. This is certainly a healthy exhibit of the condition of the Company.

The average annual cost since the commencement of business, has been 23 per cent. on the premium notes, or 23 per cent. on each \$100 insured, and on isolated deaths less than 15 cents. The plan of the Company is simply to divide the actual losses and expenses between the members, thus saving to them the profit made on the cash system. Not more than \$5000 is taken in one risk, or that would be subject to the same fire. In this way no single fire in the slightest manner embarrasses the Company, or makes the loss come heavy upon the members.

Central Ohio Railroad.

The annual meeting of the stockholders of the Central Ohio Railroad Company, as reorganized, was held April 28th, at the office of the Company, in Zanesville for the election of thirteen Directors to serve the ensuing year, and the transaction of other business. The following are the names of the Directors chosen:

Hugh J. Jewett, Joseph R. Swan, William Dennison, Walter B. Brooks, John H. Heaton, Daniel Applegate, John King, Jr., Joseph Reiman, Joseph W. Jenkins, James Harvey, Walter C. Quincy, William H. Clement and Joseph B. Ford.

The Directors elected the following officers: Hugh J. Jewett, President; Daniel Applegate, Treasurer; William Wing Secretary.

The lease of the Sandusky, Mansfield and Newark Railroad was confirmed by a vote of over two millions of Central Ohio stock; also a modification of the lease to the Baltimore and Ohio Railroad was sustained. This vote fixes the period of both leases twenty years, less the time elapsed.

Pittsburgh, Mt. Vernon and Marion Railroad.

Notice is given in the Mt. Gilead Sentinel that the Books of the Pittsburgh, Mt. Vernon and Marion Railroad Company, will be opened at Marion, Marion county, Ohio, at the office of the Marion Deposit Bank, at Mt. Gilead, Morrow county, at the office of the First National Bank; at Mt. Vernon, Knox county, at the office of John Cooper, and at Coshocton, Coshocton county, at the office of the First National Bank, on Monday May 30th, 1899, between the hours of 8 o'clock A. M. and 4 o'clock P. M., for the purpose of receiving Stock Subscriptions to the Capital Stock of the aforesaid Pittsburgh, Mt. Vernon and Marion Railroad.

The following gentlemen are the incorporators of the Company.

Knox—G. A. Jones, Jared Sperry, Jno. Cooper and J. D. Thompson.

Morrow—J. S. Trimble, C. O. Van Horn, J. C. House and David Richards.

Marion—T. H. Hodder, J. P. Wallace, O. Bowen, J. J. Williams and R. Wilson.

Coshocton—F. E. Barney, Thomas C. Rickerts, Hiram Beall and J. W. Cassingham.

A Serious Accident.
We learn from the Mansfield Shield and Banner that on Thursday evening last, a workman on the A. & G. W. Railroad, by the name of Hugh McGuire, while returning home from work in company with other workmen on a hand car, upon reaching the culvert near the Atlantic House, slipped and fell, striking his head and was cut and bruised badly, the car running over and breaking his left leg. He was taken to the Pacific House where he now lies in a critical condition. It is doubtful whether he will recover. All care and attention has been paid him. Dr. Mowry was called in, and his wounds dressed.

An Old Patriarch Gone.
The Bucyrus Journal says: "On the 21st of last March Abraham Kuntz, Esq., died, aged 85 years, 9 months and 9 days. He had been twice married, and was the father of twenty-seven children, thirteen by his first wife and fourteen by his last. Twelve of the last fourteen were at his funeral, two of whom came 250 miles to be present; fifteen of his children stood round his grave, besides their husbands and wives and his grand-children."

Stencil Cutting.
Stencil plates for marking clothing, including ink, brush and directions, 50cts to \$1.00. Key-stamps with name and residence, stamped on them in full, 30 to 50cts. Brass alphabet, rubber stamps, seal and cancelling presses, material seals, &c. For any of the above articles call on B. M. Harley at Thompson's Saddlery Shop, High street, west of the square or leave your orders with D. W. Chase, at the book-store.

Weights and Measures.
The Ohio Legislature has passed an important law, fixing the weight of a bushel of stone coal at 80 lbs.; of canal coal at 70 lbs.; the measure of cord wood at 128 cubic feet; of tan bark the same; of lime 70 lbs.; and coke 40 lbs. The bill requires all coal to be weighed in cities and towns.

Death of Hugh Ogilvie.

DIED, on the fourth day of May, 1899, HUGH OGILVIE, in the 26th year of his age. —HUGH OGILVIE was born in Mt. Vernon, on the 28th day of October, 1842. He entered the Knox County Bank when about 16 years of age, as a clerk, and on the death of J. Frank Andrews was appointed to the responsible station of Cashier, when but little over 19 years old, and continued to hold that position in that and the succeeding institution the Knox County National Bank, to the time of his death. His whole term of service in the Bank was about ten and a half years, in all which time he enjoyed the highest confidence of the President and Directors, and all persons having business with the institution.

HUGH OGILVIE was a high-minded, honorable man. He spurned a mean act. He despised tricks and frauds, and often by his bluntness gave offence to others less noble than he. Generous to a fault, he rejected the claims of none entitled to his sympathy. His charity was catholic. No person needing relief and worthy was ever denied assistance by him. Firm in his friendships, he never forsok one with whom he formed an intimacy. No one can know the affection with which he cherished a friend save those upon whom he lavished it so unsparringly. No language can express the grief of those who, as his friends, mourn his loss.

The insidious disease to which he fell a victim, he resisted with a resolution that excited the wonder of all. But when he knew that the fatal hour had come, he awaited the moment of departure, with composure and courage.

In this beautiful budding season of the year he died and was buried. By the solemn ceremony of the Masonic fraternity, in the presence of a large concourse of friends his body was consigned to the earth. Oh, Flowers of May, make bright his grave!

A Valuable Present.

We are under many obligations to our good friend GEORGE W. BROWN, Esq., of Denver, Colorado, for the present of a box of Minerals, brought by him from the rich mines in the neighborhood of Denver. We don't know what proportion of these specimens is gold, but judging from their weights and glittering surfaces, we presume they will run from 5 to 50 per cent. If gold is "laying loose around" in "chunks" like these specimens, in Colorado, we don't know but that friend Brown may tempt us "pull up stakes" in Mt. Vernon and emigrate towards the setting sun. Mr. Brown has met with unprecedented property since he located in Colorado, and his hosts of old friends in Mt. Vernon are glad to hear it. He is one of the rising men of Colorado.

Another Life of Jeff. Davis.

We have received from the National Publishing Company, of Philadelphia, advance sheets of a new "LIFE OF JEFFERSON DAVIS, with a Secret History of the Southern Confederacy, gathered behind the scenes in Richmond; containing curious and extraordinary information of the principal Southern characters in the late war, in connection with President Davis, and in relation to the intrigues of his Administration. By EDWARD A. POLLARD, author of the Lost Cause, &c. The other Lives of Davis that have been issued during the last two years were written by partisans and warm personal friends; but no charge of partiality can be brought against Mr. Pollard; and while he claims to be a truthful and unbiased historian, he labors to prove that Davis was the prime mover in the failure of the South in the late war. He is a bold, slashing, independent writer, but evidently a bitter enemy of the late "President" of the late "Southern Confederacy." We shall look for the volume with considerable interest. The work is sold only by subscription, and the publishers wish an Agent in every county.

The Mammoth Cave.

Extract from a Private Letter.
"We groped about for many hours in this wonderful place. I never saw anything like it. The freaks of nature displayed here are very strange, and strike the beholder with awe. But the air in some parts of the cave is close and stifling, and when we came out I found myself sickened with a terrible fever, which entirely prostrated me. The physician had never seen a case like it before, and he solemnly prescribed opium for the fever. My life was despaired of. Mrs. Wilson, with whom I was residing, had in the house a bottle of Plantation Bitters, and she insisted I should try it. For she said she knew it to be a certain cure in all cases of fever, delirium, ague, dyspepsia, &c. I had but little faith, but finally consented to try it as a last resort. In less than three hours after the first dose my fever left me; in two days I was sitting up, and before Saturday night I was as well as ever. I tell you on all this that you may know how to take in any case of fever, or any similar disease. I firmly believe the Plantation Bitters saved my life." In my next I will tell you about the Cave in detail. A. J. P.

Hydrophobia has been successfully treated with iodine by Dr. Mussey, of Chicago. Of the eight cases promptly treated with iodine, not one resulted fatally, nor were there any dangerous symptoms subsequently manifested. In four of the cases it was probable that the wounds were from animals already rabid, and not in the other four.

Knox County Farmer

Ashe for Wheat.

Ashe as a fertilizer most wholly neglected and allowed to go to waste by our farmers. In many instances indeed they seem to be ignorant of their value, or if not ignorant, too careless to take the necessary pains to secure and use them. During the winter, ashe can be collected in large quantities, and farmers should do this for the purpose of sowing them on wheat. In my experience with ashe I have found them of great value when used on wheat. Ashe is an active fertilizer on wheat, and even five bushels per acre will forward two days ahead of that upon which none is applied. In some seasons, when hot and sultry weather prevails about the time wheat is ripening, a few days gained is worth half a crop of grain.

The ashe strengthens the wheat stem, giving it substance and solidity; and develops the berry quicker and better. Ashe is also a preventive against rust, and I never saw wheat with ashe I have sown rust while that upon which none had been sown was rusted close to the drill row. Save your ashe and too the experiment next season. You will find it to pay you well to collect all the ashe you can get.

Farmers can afford to pay 20c. per bushel for good unleached, hard wood ashe for farm use, and not only to put on wheat, but on corn and clover, as well. I believe they are the cheapest manure that the farmer can buy, as potash enters largely into all the grains and grasses that are raised. Twenty bushels of ashe will save a bushel of wheat, and a bushel of ashe will save a bushel of corn. Ashe is also good, though a larger quantity should be used. All around us large quantities both of unleached and leached ashe go to waste every year. This should be returned to the soil. Now is a good time to collect them, and I would advise all farmers to do so and apply them to their fields. —Franklin Rep.

Selecting Cows.

A Vermont stock raiser gives the following rules for selecting cows: First, I get a broadside view of the animal, at a distance of about two rods, as I have noticed for years that there was a great similarity in the general proportion of all first-class milkers, very small in girth just back of their forward legs, as compared with their girth just forward of their hips. I have never known a first class milker, of any breed not thus proportioned; so that if this form is wanting in an animal I have recommended to me, I do not care to look at her more, unless I want to breed for some other purpose than the dairy. For breeding cows I should want a cow of reverse proportions, i. e., larger girth forward. I next feel the size of the milk veins, and trace them to their entrance into the chest, which, in superior cows, are large, admitting the ball of the larger finger, if divided, or subdivided, as is sometimes the case, I judge of the size of each udder, as I care less for the size of the udder itself than the orifice. Next, examine by sight or touch the udder or bag, which must be capacious in order to hold much milk, with veins wide apart and free from large seed veins or cords of any kind. I then inquire how long she goes dry before calving, as I don't want a family cow to give milk less than forty-six weeks out of every fifty-two; also, as to the quality of the milk; and, to close, I milk her with my own hands.

How to Make a Board Roof.

A roof of boards being less expensive than any other buildings on the farm, are frequently so covered. As usually applied, they are hardly apologies for a roof, as that portion of the water which gets thru the joints between the under boards, as they are usually put on, will follow the under edge of the board until it aims at a lateral bearing, to which the boards, (which are lengthwise the slope of the roof) are nailed; here the water is stopped and falls into the building.

This defect, which is the main one in the board roof generally, is effectively remedied by driving a row of nails in the top of the under boards, and allowing them to project one-fourth of an inch, so that the roof boards may rest on them instead of on the timbers. This admits of the water which may leak through the joints in the under boards, running without interruption to the eaves where it is discharged. If the nails of the board roof are not more than four feet apart, and the upper boards overlap the under ones two inches, and are well nailed, and the roof has a rise of six inches to one foot, it will shed rain well. —Carolina Farmer.
